Signature of Authorized Buyer: _____

general information

Custom artwork: If you are adding your city name, logo or other information in other than straight-line copy, camera-ready artwork must be supplied. Camera-ready artwork is an EPS, AI, or other vector based artwork at 300dpi or above without the need for modifications that would incur additional charges. High quality black and white paper artwork of 1000dpi is also acceptable. Camera-ready artwork is NOT faxed, folded, or output from an ink jet printer. Call for further specifications.

How do you add our logo or other information? We can add your logo in a number of ways. Obviously, the area on a pen is much smaller than on a T-shirt, but we will tailor artwork to your specific needs and desires. A paper proof is faxed for your approval prior to production.

Rush availability: Generally, products take approximately 10 working days to produce, plus shipping time. We will make every attempt to meet even the most impossible deadlines. Additional rush charges may be imposed by the factory. Please call to confirm delivery dates and rush charges.

Proofs: We will send a paper proof via fax for your custom order, unless your special rush request does not permit time. We can also produce a product proof, for an additional set-up charge.

Overruns and underruns: Since careful inspection at the factory often results in some imprinted items being discarded, it is understood that an underrun or overrun of not more than 10%, to be billed pro-rate, is acceptable.

Items not seen in the catalog: As the "Sole Source" for items bearing The Benefits Are Endless...we can find the perfect item for you. Visit advisorsmarketing.com for thousands of ideas
